

IDAHO SOIL & WATER
CONSERVATION COMMISSION

Salmon Falls Creek TMDL Implementation Plan

Program	Plans
Lead Implementer	Idaho Soil and Water Conservation Commission
Other Organizations	Balanced Rock Conservation District, Idaho Department of Environmental Quality, Twin Falls Conservation District
Project Primary Contact	Carolyn Firth (carolyn.firth@swc.idaho.gov)
Project Stage	Implementation
Duration	2019 - 2020

Studies, Plans, Monitoring & Assessment ➤ Plans

Write TMDL Ag Implementation Plan Addendum and 5-Yr. Review for the Salmon Falls Creek watershed. By detailing actions needed to achieve load reductions, outlining a schedule of those actions, and specifying monitoring needed to document action and progress toward meeting water quality standards, this provides a framework for local stakeholders to use to reach the goals established in the TMDL.

No Key Photo provided

FY 2019: 44 hours assigned for 5-Yr. Review and 0 hours assigned for Addendum (not completed by DEQ); 5-Yr. Review completed

FY 2020: 261 hours assigned; Deliverable - 50% of Addendum

Key Accomplishments

Accomplishments to be provided upon completion of Project

Project Themes

- Agricultural Lands
- Habitat and Species
- Healthy Watersheds
- Water

Location

Expenditures

No expenditures provided

Photos

No additional photos provided

Tracker tells stories at a broad-brush level. Individual project performance measures and expenditures should not be relied upon for complete and total accuracy and should be confirmed with a project's lead implementer. Project locations subject to confidentiality provisions under state and federal law specify the location of a local conservation district or USDA service center office.
